

DRILLFORM

FORMING THE FUTURE OF DRILLING EQUIPMENT

BULLDOG

PCS PIPE CLEANING SYSTEM

FEATURES & BENEFITS

SAFETY | Mud is kept in the well rather than on the rig floor, preventing slips and other health hazards

TIME SAVINGS | Pipe is cleaned as it comes out of the hole, contributing to less time rig cleaning

PRODUCT VERSATILITY | Ability to be used to add chemicals to the wellbore rather than pit mixing

COST SAVINGS | Clean up costs and time on the well are reduced

BULLDOG

PCS TECHNICAL SPECIFICATIONS

The Bulldog Pipe Cleaning System is a non-contact stripping tool designed to clean the entirety of the pipe string as it is removed from the well, a premier example of Drillform's commitment to bringing automated equipment to the drilling industry.

Specifications below are for 13 5/8" BOP, the system will be available in all standard BOP sizes.

CAPACITIES

- Through Bore Diameter: 11" & 13 5/8" / 280 mm & 346 mm
- Dual Ring Stack Height: 13 1/2" / 343 mm
- Load Capacity: 250T
- Outer Diameter: 26" / 660 mm
- Hose Connector Diameter: 1" / 25 mm
- Connections per Ring: 2

CONTROLS & HMI

- OMRON PLC Controls
- Wireless HMI Screen for Driller Operation
- Softstart for Blower and Pump Operations
- Tank Level Gauges for Monitoring
- Pump Stroke Counter for Continuous Kill Applications

BLOWER SIDE SPECIFICATIONS

- Voltage: 480 VAC
- Horse Power: 40 HP
- Blower CFM: 500 CFM Peak
- Blower PSI: 15 PSI Peak / 103 kPa Peak
- Wash Pump Pressure: 200 PSI Peak / 1,380 kPa Peak
- Wash Pump Flow: 10 GPM Peak
